

MATRIX - Kompatibilitätsübersicht der Keystonemodule zu dem Einbauobjekt

MATRIX - compatibility overview of keystone modules to the mounting object

TKM bietet Keystonemodule (KSM) kleiner kompakter Bauform (HD - High Density) und normal großer Bauform (SD - Standard Density) an. Die dazu passenden Verteilerfelder oder Datendosen sind ebenso durch einen Indikator (HD oder SD) gekennzeichnet.

Grundsätzlich passen in Verteilerfelder des Typs SD beide Bauformen der Keystonemodule, allerdings muss beim Verteilerfeld Typ HD darauf geachtet werden, das auch nur KSM des Typs HD benutzt werden. Eine detaillierte Kompatibilitätsübersicht liefern die folgenden Tabellen:

TKM provides keystone modules (KSM) in small and compact design (HD - high density) and standard sized design (SD - standard density). The compatible patch panel and wall outlets are as well marked with an indicator (HD or SD) as the keystone modules. Basically the patch panels of the type SD can be used with both types of KSM, however using HD panels it has to be made sure that only HD KSM are being used. A detailed overview can be found in the following tables:

Remark: ● Kompatibel
compatible

- nicht empfohlen, da Datendosen / Hutschienenadapter selbst eine integrierte Staubschutzklappe besitzen (mechanisch allerdings kompatibel)
not recommendet because wall outlet / top-hat rail adapter also have an integrated dust shutter (mechanical compatible)
